EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

2. The following is an examiner's statement of reasons for allowance: None of the prior art disclose the claimed electrical connector for receiving and IC package or a CPU as being recited in independent claims 1 and 11, respectively. Specifically, the limitations of a cover slidably mounted on the base; a metallic stiffener engaged with the cover; a pair of operating members actuating the stiffener and the cover to move relative to the base, each of the operating members comprising a first operating lever engaged with the stiffener and a second operating lever engaged with the base; a lid movably engaged with the base; wherein when an up-and-down movement of the operating member causes a pivoting movement of the operating lever to move the stiffener and the cover back-and-forth relative to the base thereby disconnecting and connecting the terminals with the leads of the IC package or CPU during applying an unduly force on the lid, the cover attaches an inner face of the stiffener causing the stiffener to protect the cover from damage due to a proportion of the cover undergoing too great a force are not anticipated or suggested by the prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
